Auston Engineering was started with a vision to be one of the best service providers in MEP Engineering by achieving extraordinary results for its customers. We have the best of the talents in the industry and we are equipped to deal with any kind of complex situation in HVAC, Electrical, and Fire Fighting.

We always value our esteemed customers and serve as per their requirements. We care for their utmost satisfaction.

Our Services

360° MEP SERVICE SOLUTION

In-house capabilities of system design and audit to support augmentations & retrofitting for HVAC, Electrical, Plumbing & Firefighting services.

Auston has built a robust service infrastructure to render quality after-sales services during the warranty and post-warranty periods. These will enable us to satisfy our customers' needs and to get repeat business.

ANNUAL MAINTAINANCE CONTRACT

Recommendations for repairs, augmentations, replacement, etc, are made for achieving the trouble-free and efficient performance of equipment all the time.

Our Services

REVAMP SERVICE

Retrofitting & Augmentation of Existing systems such as HVAC, Electrical, Firefighting services, etc.

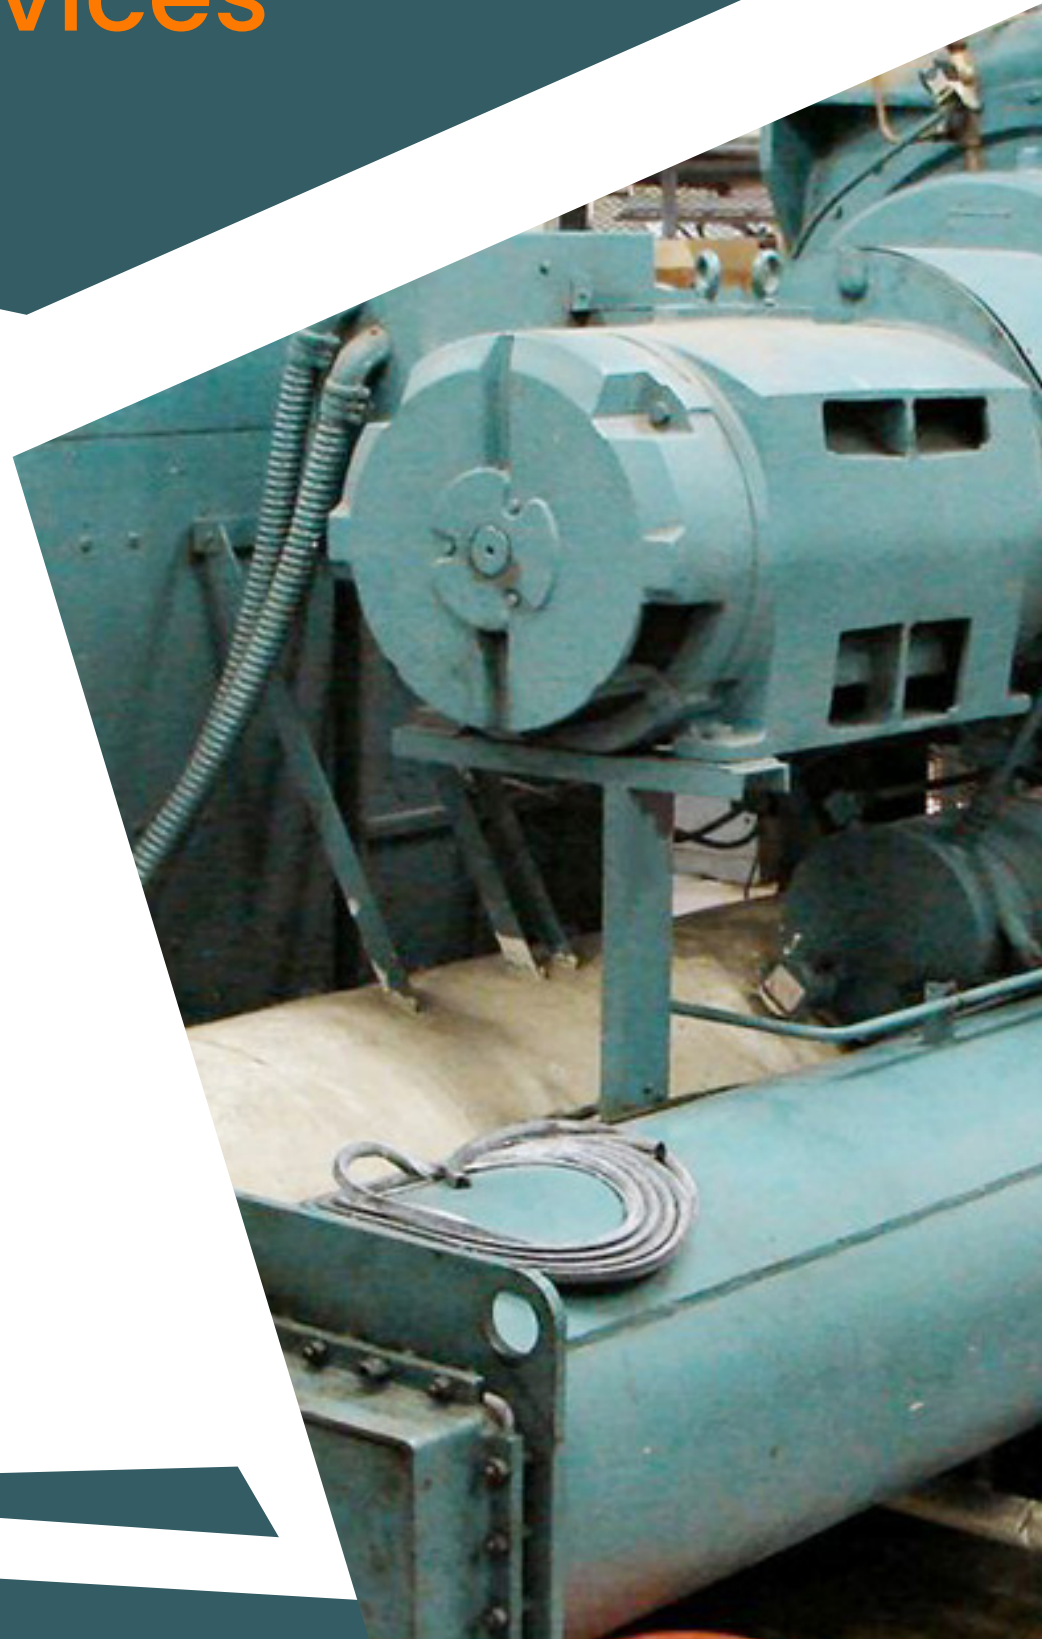

OPERATION & ROUTINE MAINTENANCE

Recommendations for repairs, augmentations, replacement, etc, are made for achieving the trouble-free and efficient performance of equipment all the time.

VALUE ADDED SERVICE

Auston Engineering deals in Indoor Air Quality Improvement Solutions, Architecture Designs such as Residential Design, Corporate Design, Redesign & Renovation.

Auston Advantage

INSTANT DRAWING AND REVISION

Highly detailed MEP drawings within half the time, and same-day revisions for any changes in floor plan.

DEPENDABLE SERVICES

Our Customers are always in sync with MEP Processes. We have transparent deliverables and designs as per the codes assigned. We deliver trust to our customers.

CO-ORDINATED MEP DRAWINGS

Auston Provides a set of coordinated MEP drawings to minimize clashes, save money and prevent hassle.
